SOFTSTYLE
CELLULAR SHADES**

Effective 08/01/2023

HOW TO USE THIS DOCUMENT

To determine what Alta Honeycomb and SoftStyle Cellular products qualify for the Federal Tax Credit, please follow the steps below.

- 1) Determine the Climate Zone (see below) of the **residence** where the shades will be installed. This step is crucial because the specific fabric and operating system configurations that qualify for the Federal Tax Credit may vary based on the residence's Climate Zone.
- 2) Refer to the **Product Qualification Reference Chart**, which can be found on Pages 3 and 4. Fabrics not listed on these pages do not qualify.
- 3) In the **Product Qualification Reference Chart**, find the fabric, operating system and Climate Zone.
 - If the fabric falls within a **LIGHT BLUE** area, the fabric qualifies for the Federal Tax Credit. Available operating systems include BLISS Automation* and Cordless Lift in both Bottom-Up and Top-Down/Bottom-Up.
 - If the fabric falls within a **DARK BLUE** area, not all options qualify for the Federal Tax Credit. Refer to the **Qualifying/Non-Qualifying Size Grids**, for the applicable operating systems.

4) Within the **Qualifying/Non-Qualifying Size Grids**: find the specific fabric, operating system, and size of the product.

- If the size of the product falls within a **LIGHT BLUE** area, that specific product configuration qualifies.
- If the size of the product falls within a **DARK BLUE** area, the specific product configuration **DOES NOT QUALIFY**.

IMPORTANT: Any products purchased with the following systems and design options **DO NOT QUALIFY**:

- BLISS™ Automation operating system without the BLISS™ Bridge
- End Mount
- Outside Mount
- Cut-Outs
- Two-on-One Headrail
- Three-on-One Headrail
- Two-Fabric Combo
- Specialty Shapes
- Vertical Application
- Skylights
- Arches
- TriLight Shades®
