

CAPABILITY STATEMENT

Made in the Shade Blinds

Anything on a window -- Inside or Out

Made in the Shade Blinds provides innovative solutions to cover any window, inside or outside. If it fits on a window, Made in the Shade can source it for your agency. Our team specializes in **motorized roller shades** for improved light control, privacy and improved multi-media viewing. Our systems are fully-compatible with home and office automation systems.

As a Minority-Owned Small Business, Made in the Shade is committed to excellence and creating innovative, flexible solutions for our State and Federal clients.

What sets Made in the Shade apart from the competition?

- Our People
- Performance-Based Processes
- Motorized Shade **Expert "Platinum" Status**
- Customized Solutions for Every Budget

CORE CAPABILITIES

Our design experts can evaluate an existing room or projected construction project to provide innovative & cost effective window treatment solutions.

- Motorized Roller Shades
- Blackout Shades
- Traditional Aluminum & Faux Wood Blinds
- Venetian Blinds

Primary Products & Advanced Solutions

Made in the Shade adjustable window treatments, include blinds and shades that allow users to control the amount of daylight and potential glare in individual and shared spaces. These shades can also be automated with light sensors.

- Up to a 15% reduction in the total cost of energy
- Less glare
- Increased comfort
- Increased productivity
- Can help with environmental certification

Window Treatments

- **Wide range of Manual Solar Shades** that are cost-conscious, durable and help increase energy efficiency.
- Motorized Solar Shades feature state-of-the-art control systems for effortless operation from a handheld remote or wall switch.
- Automated Solar Shades, engineered with intelligent motors and user-friendly shade control, are great for large or hard to reach applications and harvesting daylight.
